

ADJOURNED MEETING OF COUSINS' SOCIETY

PRESENT, PROSPECTIVE AND
PAST CONDITIONS MAKE
GOOD SHOWING.

Membership Past Twelve Hundred
Mark—Finances are Satisfactory
—Officers for Ensuing Year—The
Missionary Album.

Members of the Hawaiian Mission Children's Society, who gathered at the pleasant home of J. B. Atherton on King street yesterday evening, enjoyed an interesting and profitable season of sociability, as well as assisting in the transaction of several items of important business.

The meeting was one adjourned from that held two weeks ago at the home of J. Frank Cooke. The parlors and lanai were well filled with a representative gathering when the retiring president of the society, Rev. W. D. Westervelt, made known the object of the session, in a few brief and appropriate words.

Reports from various officers were then received. A statement from the treasurer, Judge Lyle A. Dickey, showed that the financial affairs of the Mission Children's Society were in healthy condition. The total receipts for the past year amounted to \$2100. About this amount was expended, leaving a pledge of \$77 above the amount received in the treasury.

The report of the corresponding secretary, Mrs. L. B. Coan, proved a decidedly interesting compilation of facts gleaned from the past existence of the society in its missionary endeavors.

Another interesting feature of the meeting was the reading of letters from the homes of cousins in distant lands, which were submitted in connection with the report of the corresponding secretary, Miss Martha Chamberlain. Deaths among members were also noted. The membership was stated as numbering over 1200.

A gratifying report was received concerning the work among the Chinese by the society. This matter was presented by Rev. Frank W. Damon.

The Hilo Boys' Boarding School was favorably heard from through a communication submitted by Mrs. Coan. This school was organized some fifty years ago by Rev. D. B. Lyman. All reports received from the various educational institutions were ordered printed.

Copies of the Mission Album now in press were voted to be sent to the American Board of Foreign Missions at Boston, Mass., the London Mission Society and the Hawaiian Historical Society.

The Mission Children's Society is now offered by the following: President, Rev. O. H. Gulick; vice pres-

ident, J. P. Cooke; secretary, Lorin Andrews; treasurer, Lyle A. Dickey.

Murphy Hall Concert.

There was a goodly attendance at the regular Saturday evening concert in Francis Murphy hall. An excellent program was rendered. Mr. Dougherty sang in his ever-pleasing manner and Mr. Pifer gave some of his comic specialties. Mr. Kaal contributed two banjo solos. The piano was brought into play four or five times, the performers being Mrs. Bouchard and E. S. Taylor. Franklin Austin delivered a powerful address, stating at the outset that the object was not to get people here Saturday evenings for preaching. He had a special purpose on this occasion, however, which was to declare himself as endeavoring to fulfill the whole of the Murphy pledge, with especial reference to its closing engagement to use every honorable means to induce others to abstain from drink. He stated his firm belief in divine inspiration to help himself and all others, who undertook to help their fellowmen in leading a Christian life.

NEW CATHOLIC ORGANIZATION TO BE STARTED AT KALIHNI

The Association of St. John the Baptist, at the Catholic church of Kalihiwaena, will receive as members all Catholics, and Catholics only, of both sexes.

Its end, which is triple, is: 1—To celebrate worthily the Feast of St. John the Baptist, (June 24); 2—To assist the members when in need; 3—To help also, as far as possible, those in need outside of the association. To fulfill the triple end of the association, each member shall give, as a contribution, 25 cents per month. The association will be organized on the festival day of St. John the Baptist, on the premises of the Catholic church of Kalihiwaena.

SUDDEN DEATH OF OLD AND RESPECTED RESIDENT

E. Tietjens, an old resident, died very suddenly yesterday morning at his home on the premises of W. H. Wilkinson, King street, opposite Kalihiwaena church. He was struck down with apoplexy. The funeral took place at 4 o'clock in the afternoon.

Mr. Tietjens came here about 20 years ago from Samoa, where he had been in the employ of Godfrey & Co., the big German merchants and planters at Apia. For some years he was employed in the office of the late Albert Jaeger, insurance and financial agent. Since then he has successively been manager of the Palama Grocery store for H. Hackfeld & Co., Ltd., clerk for the Oceanic Steamship Co. and expert accountant. In the last named capacity his ability was generally recognized.

Mr. Tietjens was of a retiring disposition and friendly nature, well liked and universally respected. He leaves a wife to mourn his loss.

RICE GROWING IN LOUISIANA.

A New Industry Employing 20,000 People From the North.

From the Manufacturers' Record.

During the past ten years 20,000 persons from the North and West have been attracted to a couple of parishes in Southwest Louisiana by the demonstration of the fact that irrigation in conjunction with methods successfully applied years ago to wheat growing in the prairie states

would make rice growing equally successful. The result is the existence of a practically new industry in Louisiana and Texas with a capital of 5 million dollars in 100 canals, 1,500 miles in extent and now capable, under present water conditions, of flooding 900,000 acres. 4 million dollars invested in wells which in three years have increased from 20 to 500, and the necessary machinery, and 14 million dollars invested in thirty rice mills fitted with the latest and most improved machinery.

Today in the rice belt we have found the largest reservoir of irrigating water in the world, the best possible for flooding growing vegetables, and all this without money or price. Then add to this the recent discovery of oil in the same belt, giving us the largest reservoirs of water for flooding and oil fuel in the world. The yield of rice per acre has been increased 50 per cent by flooding. The cost of water is one-fifth the crop, the average yield is ten sacks of rough rice; the whole range is from nothing to thirty-five sacks, 132 bushels per acre. The price has had a range of \$1 up to \$9 a barrel of 162 pounds of rough rice, giving a fair average of \$3 a barrel. This would give an average of \$30 per acre at a cost of \$15 net. This would mean five per cent upon \$300 an acre, and as good rice land can be bought at from \$25 to \$50 an acre, the profits are certainly very satisfactory.

The coincidence of fuel oil and rice mills in the Louisiana-Texas belt is likely to reduce the cost of handling the rice and, consequently, to increase the profits of those interested in this industry.
